NAMO CAPS PVT. LTD.

About Us:

We "NAMO CAPS PVT. LTD." introduces ourselves as a leading Manufacturers of Plastic Caps & Crown Corks for wide range of industries including Food & Beverages, established in the year of 1976 by founder Late Mr. S.P. Garg. We are certified with ISO 9001:2015 certification & have invested in latest technology machines to ensure for best quality. We have two manufacturing plants:

UNIT-01 (PLASTIC CLOSURE DIVISION)

Here we are manufacturing plastic closure by SACMI CCM Machine and we have two types of closure for carbonated soft drinks, Aerated drinks and Juices.

1881 Single Piece CSD Closure:

1881 SINGLE PIECE CSD plastic caps manufactured by the SACMI CCM (Continuous Compression Moulding) machine are a popular choice for sealing carbonated soft drink (CSD) bottles. The SACMI CCM machine is a state-of-the-art technology used for the production of plastic closures.

1881 CSD is a single piece closure having a short neck PCO finish with three-point sealing designed for the Carbonated Beverages Market. This is a high-speed Mould up to 600 caps/ min.

Features:

- Three point sealing to protect the integrity and safety of the product.
- Suitable for storing Carbonated Beverages for a longer period of time.
- 100% Tamper evident

Closure Type:	1881 CSD (Single Piece)
Finish Compatibility:	PCO/1881 (without Liner)
Shell Material:	HDPE
Seal Type:	Three-point Seal (Bore, Top & Side)
Tamper Evident Brand:	Drop
Thread:	2.7 mm Pitch (Single Start with Vent)
Instant Pressure Retention:	100 psi for 1 min no leakage, then up to 150 psi no release
Closure Weight:	2.30 +/- 0.05

1881 Two Piece CSD Closure:

A two piece closure having a short neck PCO finish with double lip liner sealing designed for the Carbonated Beverages Market. 28mm CSD 1881- This is single start thread, short neck two piece closure with double lip liner sealing suitable for carbonated beverages. Decoration in two color printing on top of closure also possible. Instant pressure retention 100 psi for 1 min. Then up to 175 psi.

Closure Type:	AF-28-1881 (2-Pieces)
Finish Compatibility:	PCO/1881
Shell Material:	PP
Seal Type:	Two-point Liner Seal (Bore & Side)
Tamper Evident Brand:	Drop
Thread:	2.7 mm Pitch (Single Start with Vent)
Instant Pressure Retention:	100 psi for 1 min no leakage, then up to 150 psi no release
Closure Weight:	2.74 +/- 0.06

UNIT-02 (CROWN CORK DIVISION)

Here we are manufacturing Crown Corks by NIPPON Fully automatic (JAPAN) Printing machine and we have All types Of Crown Corks:

- PVC Spun crown corks ideal for sterilized flavored milk.
- Day blend double ring crown corks for soft drinks, beer, soda and juice.
- PVC free crown cork which are latest version

This modern cap concept can easily replace standard- thickness caps (0.24 millimeter thick) thanks to its complete compatibility and interchangeability. The advantage lies in the fact that this cap uses thinner metal, less raw material, less packaging and optimized logistics. Proven benefits include CO2 reductions of 15% or more without lowering the performance provided by standard-thickness caps. This new closure makes it possible to reduce environmental impact significantly, not just because less raw material is used but also because there are less waste and fewer emissions per product. Such benefits are additional to those obtained on the manufacturing and logistics fronts (less energy consumption and a higher number of pieces per unit of weight).

Crown Caps

We are producing following types of high-quality Crown Caps from the most modern fully automatic plant with all imported technology and equipment:

- Dry Blend Crown Caps
- Molded Crown Caps
- PVC Spun Crown Caps
- Capacity - 3 million caps/Day.
- Dust/insect free environment.
- Most Modern, zero error, computerized machines.
- Offering state-of-the-art Dry Blend Technology with Double Lip Liner,
- In house Printing facility.
- Fully Equipped, Most Modern testing and quality control lab
- Dust Free Environment.
- ISO certified company.
